

BRAND GUIDELINES

ZOIKO LOCAL

Brand Usage

A minimal visual guide for consistent use of the Zoiko Local identity.

MINIMAL • CLEAR • BRAND-ALIGNED

— BRAND SYSTEM

A simple system built around recognition.

Zoiko Local works best as a restrained visual identity: warm neutral space, deep teal structure and coral accents. The supplied logo remains the primary source of recognition.

— CORE PALETTE

ZOIKO TEAL #0A4F4A	ZOIKO CORAL #E85D3C	WARM CREAM #F6F2EC
------------------------------	-------------------------------	------------------------------

— LOGO

— LOGO RULES

- 01 Use the supplied SVG**
Treat the supplied SVG as the master artwork wherever a vector logo is required.
- 02 Protect the proportions**
Never stretch, skew, rotate, crop or redraw the mark.
- 03 Give it space**
Keep clear breathing room around the logo and avoid placing it against visually busy areas.
- 04 Use approved color treatments**
Use the supplied logo treatment on appropriate light or dark backgrounds.

— TYPOGRAPHY

Clean type. Clear hierarchy.

The supplied materials do not specify an approved corporate typeface. Helvetica is used in this production edition only as a neutral fallback. Replace it with the official Zoiko Local typeface when the approved font specification is available.

HEADLINE	BODY
Clear, confident statements	Short paragraphs with generous leading and comfortable reading width.

— LAYOUT PRINCIPLES

- 01 Whitespace first**
Let the page breathe. Avoid filling every available area.
- 02 One dominant message**
Use one clear heading and one supporting thought before secondary information.
- 03 Teal for structure**
Use teal for headings, navigation, key fields and strong brand moments.
- 04 Coral for action**
Use coral sparingly for labels, highlights, CTAs and important accents.

Imagery

Prefer warm, natural-light, human business imagery. Product visuals should be cleanly framed and surrounded by generous negative space.

Source note

This guide is based on the supplied Zoiko Local SVG logo and website screenshot. No separate approved font or complete visual specification was supplied.
