— PRODUCT RESOURCE

Product & Platform Overview

A visual-first framework for explaining Zoiko Local alongside approved interface screenshots.

The product story

Build the narrative in four steps: **what it is** → **who it serves** → **how it works** → **why it matters**. Keep each step concise and support major claims with approved product evidence.

— RECOMMENDED NARRATIVE

01

What is Zoiko Local?

Insert the approved one-sentence product definition.

02

Who is it for?

Insert the approved audience or customer segment.

03

Core experience

Show the strongest approved product screenshot and explain the user outcome.

04

Key capabilities

List 3–5 approved capabilities using short, outcome-led statements.

— VISUAL TREATMENT

SCREENSHOT	OUTCOME
Approved interface visual	One clear sentence describing what the viewer should notice.
Supporting detail	Short proof point, feature or workflow step.

Design direction

Use warm cream as the main canvas, deep teal for structure and coral for moments of action or emphasis. Product screenshots should sit inside generous cards with restrained borders and consistent corner treatment.

Source status

The supplied screenshot identifies a “Product screenshot — Conversation Center” resource, but does not provide enough factual detail to describe the feature. Final product copy should come from approved product documentation.
